AREA DESIGN + MATERIAL MOOD

Location. Scale. Reference. Material.

22 AREA SHEETS

Each sheet puts the client-plan location, stand code, footprint, concept reference and material palette together.

HOW TO READ

Pink pins identify the listed locations.

Images show the proposed design family.

Material samples are proposed finishes, with their intended use beside each one.

Material selections are design proposals, not confirmed installed products. Shared concepts are adapted to each footprint. Sizes that conflict across the client documents are flagged on the relevant sheet.

ASCEND / INTO NEW WORLDS

Dark architectural structure, translucent layers, brushed metal, controlled neon accents and human-scale hospitality.
